

Lab 10.2 - Exploiting nancurunir

Target: nancurunir.shire.org

Deliverable 1. Provide the Following Information to include commands and screenshots. Provide all this information within a Pentest Report for this target. Come up with your own Title Page and Pen Test Organization (A Tolkien theme is preferred). Here's a [sample](#) prepared by a student on the cupcake target.

- Target IP Address
- Open Ports
- Discovered Vulnerabilities
- How you achieved a foothold
- How you achieved root/Administrative level compromise
- User Flag
- Root Flag
- How might the vulnerabilities be mitigated by the system administrator?

Hints, if needed

- [Hint 1](#)
- [Hint 2](#)
- [Hint 3](#)

Deliverable 2. Tech Journal and Reflection. If there are technical elements covered in your pentest report that aren't already in your journal, make sure to add them to your journal. Provide a Link

For reflection, consider those things that gave you trouble with this Target. What did you need assistance with in the form of hints and suggestions from your peers? Provide a Link
