

Lab 9.2 - Exploiting Gloin

Target: gloin.shire.org

💡 If you exploit gloin through changes in credentials, please reset the target when complete.

Deliverable 1. Provide the Following Information to include commands and screenshots. Create a tech journal page that covers the following.

- Target IP Address
- Open Ports
- Discovered Vulnerability
- How you achieved a foothold
- How you achieved root/Administrative level compromise
- User Flag
- Root Flag
- How might the vulnerabilities be mitigated by the systems administrator and developer?

Deliverable 2. Tech Journal Reflection.

What gave you trouble with this Target? What did you need assistance with? Provide a link to your journal page.
