

Deliverable 1. Watch this [video](#), and provide a screenshot of your single user mode session where you set the root password for Kali similar to the one below.

```
/dev/sda1: clean, 455037/2559088 files, 3838219/10235392 blocks
bash: cannot set terminal process group (-1): Inappropriate ioctl for device
bash: no job control in this shell
root@(none):/# mount -rw -o remount /
root@(none):/# passwd
New password:
Retype new password:
passwd: password updated successfully
root@(none):/# passwd
New password:
Retype new password:
passwd: password updated successfully
root@(none):/# df -h
Filesystem      Size  Used Avail Use% Mounted on
udev            1.5G   0    1.5G   0% /dev
tmpfs           298M  104K  298M   1% /run
/dev/sda1       39G   14G   23G   38% /
